

EMMANUEL UNGWERU KAWONGA

SOFTWARE DEVELOPER | ICT & DIGITAL SOLUTIONS CONSULTANT

Lilongwe, Malawi | +265 885 303 716 | kawongaemmanuel3@gmail.com | linkedin.com/in/emmanuel-kawonga-379822278 | github.com/ungweru

PROFESSIONAL PROFILE

Software Developer and ICT professional with a BSc (Hons) in Computing — Second Class Upper — and practical experience spanning software development, ICT support, systems administration support, database-driven applications and user training.

I approach technology from both a technical and operational perspective, combining software development with an understanding of users, business processes and organisational requirements. Experienced in designing and developing web applications, cross-platform applications, databases and digital platforms, as well as providing technical support and user training.

Strong foundation in C#, .NET, React, JavaScript, PHP/Laravel, Node.js, SQL databases and RESTful APIs, with additional knowledge of ICT service management, information security and technology governance frameworks.

CORE COMPETENCIES

- Software & Application Development
- Cross-Platform Application Development
- Database Design & Management
- Digital Workflow & Process Improvement
- User Training & System Onboarding
- Application Testing & Debugging
- Full-Stack Web Development
- Systems Analysis & Requirements
- REST API Development
- ICT Support & Troubleshooting
- Technical Documentation
- Responsive UI Development

PROFESSIONAL EXPERIENCE

Computer Science & ICT Tutor — LHQ Learning Solutions

June 2026 – Present

Part-Time | Lilongwe, Malawi

- Deliver Computer Science and ICT instruction through structured theoretical and practical sessions.
- Explain technical concepts and computing principles to learners with different levels of understanding.
- Develop practical exercises, revision activities and learning materials.
- Support learners with programming, computing applications and practical ICT tasks.
- Assess learner understanding and provide targeted feedback and guidance.
- Adapt teaching approaches to individual learner requirements.
- Develop communication and user-enablement skills directly applicable to technical training and system onboarding.

Systems / ICT Support Intern — Malawi Human Rights Commission

2025

Lilongwe, Malawi

- Provided ICT support to staff across departments.
- Assisted with troubleshooting hardware, software and network-related issues.
- Supported system operations and user access management.
- Assisted users in resolving technical issues and escalated incidents where necessary.

- Maintained ICT documentation and operational records.
- Supported day-to-day technology operations within an institutional environment.
- Developed practical experience in user support, systems administration and organisational ICT operations.

ICT Tutor — Shining Stars Academy

2025 – 2026

Lilongwe, Malawi

- Delivered ICT lessons and supported learners with computing concepts.
- Developed structured learning materials and practical support sessions.
- Assisted learners with technical and digital skills.
- Supported troubleshooting and maintenance of ICT learning systems.
- Strengthened communication, presentation and user-support capabilities.

Software Developer Intern — ICTAID

February 2024 – December 2024

Lilongwe, Malawi

- Assisted with the development and maintenance of software applications.
- Worked with database-driven systems using MySQL and PostgreSQL.
- Supported backend development and application logic.
- Assisted with debugging, testing and application optimisation.
- Participated in the development of database-driven applications.
- Documented technical workflows and development processes.
- Collaborated with development team members on assigned software tasks.

SELECTED PROJECTS & DEVELOPMENT WORK

Grade School Hub

Educational Management Platform | Full-Stack Prototype

A full-stack educational management platform exploring the digitalisation of school workflows including learner management, classrooms, subjects, teaching resources, assignments, grading and academic reporting.

Technology: React · TypeScript · Tailwind CSS · Express.js · REST API · MySQL · RBAC

Demonstrates: Full-stack development · Database design · Systems thinking · Role-based access control · Workflow digitalisation

Status: **PROTOTYPE**

eQCLIPSE

Digital Wellness & Social Application | Cross-Platform Prototype

A cross-platform application prototype developed for Vivid Dimensions. Built with .NET MAUI and Blazor Hybrid, the application is designed to operate across both mobile and desktop environments from the same application project. The prototype explores journaling, communication, support, status and community-oriented functionality while applying a defined product and UX architecture.

Technology: C# · .NET MAUI · Blazor Hybrid · Cross-Platform Architecture · Component-Based UI

Demonstrates: Product thinking · UX/UI · Cross-platform development · Application architecture · Requirements interpretation

Status: **PROTOTYPE**

SmartAssist Learning

Accessible Educational Application | Functional Application

A cross-platform learning application designed to support learners with special educational needs through interactive mathematics and reading activities, progress tracking, text-to-speech and AI-assisted support.

Technology: .NET MAUI · C# · MVVM · SQLite · Dependency Injection · Text-to-Speech · AI Services

Demonstrates: Cross-platform development · Accessibility · MVVM architecture · Local data persistence · AI integration

Status: **FUNCTIONAL**

Project Mlatho

Web Platform | Completed & Deployed

Developed and deployed a web platform for Project Mlatho, supporting its digital presence and online engagement.

Demonstrates: Web development · Responsive design · Digital presence · Deployment

Status: **COMPLETED** · **DEPLOYED**

TECHNICAL SKILLS

Programming & Development: C#, JavaScript, TypeScript, Python, PHP, HTML5, CSS

Frameworks & Libraries: .NET, ASP.NET, .NET MAUI, Blazor Hybrid, React.js, Laravel, Node.js, Express.js, Bootstrap, Tailwind CSS

Application Architecture: MVC, MVVM, RESTful APIs, Role-Based Access Control, CRUD, Component-Based Development, Dependency Injection

Databases: Microsoft SQL Server, MySQL, PostgreSQL, SQLite, Oracle Database

Systems & Infrastructure: Windows, Linux, Windows Server, basic networking, hardware & software troubleshooting, system configuration, user support

Development & Productivity Tools: Git, GitHub, Visual Studio, Microsoft Office, Google Workspace

ICT & Governance: COBIT, ISO/IEC 27001, NIST Cybersecurity Framework, ITIL

ICT & DIGITAL CAPABILITIES

Software Development

Design and development of database-driven web, desktop and cross-platform applications.

Systems & Digital Solutions

Requirements analysis, workflow digitalisation, database design and technology solution development.

Web & Digital Platforms

Responsive websites, information platforms, APIs, user interfaces and deployment.

IT Support

Hardware and software troubleshooting, user support, system configuration and basic networking.

Training & User Enablement

ICT training, Computer Science instruction, software onboarding, user guidance and technical documentation.

VOLUNTARY EXPERIENCE

Communications & Advocacy — ICT & Digital Support — Project Mlatho

2026 – Present

- Support web design and development activities.
- Manage digital communication and social media activities.
- Create digital content for advocacy and outreach.
- Assist with strengthening organisational online visibility.
- Provide ICT and digital support where required.

EDUCATION

BSc (Hons) Computing — Second Class Upper Honours

NACIT, Malawi

2025

Advanced Diploma in Computing

NACIT, Malawi

PROFESSIONAL STRENGTHS

- Analytical and problem-solving ability
- Software development
- Communication and presentation
- Team collaboration
- Technical documentation
- Technical troubleshooting
- Systems thinking
- User training and support
- Adaptability and continuous learning
- Time management and organisation

PROFESSIONAL INTERESTS

Software Engineering · Information Systems · Digital Transformation · ICT Consulting · Cybersecurity · Artificial Intelligence · Data-Driven Systems · Educational Technology
