PROFILE SUMMARY

Computing graduate with strong practical experience in ICT support, systems administration, software development, and user training. I have progressed beyond purely academic knowledge through hands-on roles as a Software Developer Intern, ICT Support Intern, and ICT Tutor. My experience has strengthened my ability to develop and administer software systems, efficiently support users, and train individuals to confidently use technology.

I believe technology works best when people understand it, and I bring this people-centered approach to every role. I am reliable, efficient, and a strong team player, motivated by using ICT skills to support organizations where accuracy, trust, and service to users are essential.

PROFESSIONAL EXPERIENCE

Tutor

Shinning Stars Academy, Lilongwe | October 2025 – Present

- Delivering ICT, Science, Math, Geography and History tutoring to students, focusing on practical understanding
- Creating engaging and effective learning materials for students
- ICT support including system setup, configuration, and troubleshooting

Systems / ICT Support Intern

Malawi Human Rights Commission (MHRC), Lilongwe | July 2025 – October 2025

- Provided ICT support to staff, resolving hardware, software, and network-related issues
- Assisted in administering and maintaining network infrastructure to ensure system reliability and uptime
- Supported users with system access issues, installations, and troubleshooting
- Documented technical procedures and contributed to system improvements

Additional Responsibilities – Communications & Multimedia

- Supported documentary production, videography, and photography projects
- Developed multimedia content to enhance organizational communication and outreach

Software Developer Intern

ICTAID, Lilongwe | February 2024 – December 2024

- Assisted in developing, testing, and debugging software applications
- Supported system development projects through documentation and technical assistance
- Provided basic hardware and software troubleshooting support
- Collaborated with team members on ICT solutions tailored to client needs
